Acting Chief, S/CST

Priority Requirement

1. It is requested that the earliest possible interrogation be made of the source indicated below. The potential information from this source would be of high value and wide use in the intelligence community, and would contribute to EIR II-2-57, the ORR deadline for which is 1 December 1956.

2. The source of this information is a former Finnish [REDACTED], who was a prisoner in the [REDACTED] from 1945-46 and a slave laborer for a year after that. The background of the source and some information from him are given in State Department Despatch 111 from Amnongen, Frankfurt, Germany, dated 10 October 1956. He is said to be available to the Service Attache Offices of the American Embassy in Helsinki.

3. There is a suggestion in the description of the source that his bona fides should be questioned. This does not detract, however, from the conviction that he should be interrogated on a high priority basis. Questions for this source are attached.
